DANGER: Knives are sharp! Store safely away from children. Knives are not for use by children.

Using your Zakarian by Dash Cutlery for purposes other than cutting food may result in the blade breaking or personal injury. DO NOT use Knives for opening cans or bottles, or as a makeshift screwdriver, saw, or other tool.

Your Zakarian by Dash Cutlery is not designed for cutting through food that is frozen solid, or cutting through solid bone.

Zakarian by Dash cutlery has a wealth of features and benefits that puts these knives in a league of their own. All Zakarian by Dash cutlery is made with:

- German stainless steel blade, ensuring a sharp edge and added durability with less chipping and breaking. It also resists corrosion and rusting.
- A forged full-tang design: the blade's metal runs through the handle for a more balanced cutting experience.
- An ergonomic triple-riveted handle for enhanced comfort and durability.

Before first use, wash all knives by hand (see Cleaning & Maintenance).

Sharp knives are safe knives! Keep blades sharp to ensure they are easy to cut with. Cut away from the body. Hold by the handle when cutting, not by the blade.

For longevity and sharpness, use a cutting board when slicing. Knives are best used on cutting surfaces including wood or plastic. Stone, glass, and stainless steel surfaces may dull the blades of your knives if used as a cutting surface.

For maximum longevity, knives are best stored in a knife block, on a magnetic strip, or in a knife case. When storing in a drawer, it is best to protect knives in sheaths (if included).

Do not clean your Zakarian by Dash Cutlery using a detergent that has natural citrus, as this may cause corrosion.

Your Zakarian by Dash Cutlery is dishwasher safe, however washing them in this way may shorten their lifespan and cause them to dull more quickly. Hand washing with a non-abrasive cloth or sponge is recommended.

Do not leave knives soaking in water for long periods of time.

Promptly dry after cleaning using a dry towel. Dry from the back of the handle toward the knife edge.

SHARPENING YOUR ZAKARIAN BY DASH CUTLERY

You can sharpen your Zakarian by Dash Cutlery using a handheld or electric knife sharpener or a handheld steel.

To sharpen your knife, run it through the notch in the knife sharpener while lightly applying pressure.

Your knife sharpener may have settings from coarse to fine. Fine sharpening settings should be used for general maintenance, while coarse settings can be used to completely resharpen the blade.

To use a sharpening steel, hold it in your non-dominant hand with the end of the steel resting against a stable surface.

Start at the top of the steel and pull the blade down and toward you. Hold the blade at a 14° angle to the steel. Repeat after by placing the other side of the knife blade on the other side of the steel.

After sharpening knives using any method, always wash to remove excess steel from the blade before using.
